

Help plan the future of the UK's largest health and beauty retailer.

Our ambition is to always have the right shops in the right places for all our customers. And with over 2,500 shops, ranging from the very small to the very large, our work is both demanding and stimulating.

Portfolio Analyst

Nottingham, £competitive + bonus scheme + benefits

Working in a team of three at the leading-edge of retail portfolio analysis, you will harness the power of reservoirs of data to develop our Portfolio Analytics practice. From mapping the dynamics of catchment areas using Advantage Card data, to developing our views of market share across every locality in the UK, you will become an acknowledged expert on all aspects of Boots' performance across our retail and healthcare markets. You will directly support the Location Planning team in assessing site performance, and support the development of our wider business strategies.

Educated to degree level (or equivalent), you will have an established background in analytics and proven experience of working both autonomously and as part of a broader team. You are highly numerate with a good understanding of statistics, and adept at interpreting and presenting data at all levels of understanding. Strong SQL skills and extensive knowledge of Microsoft Excel and Access are essential, and experience in GIS, SQL Server or Visual Basic will be an advantage.

Join us for a challenging role with a truly world-class employer. We're a friendly and supportive team, and with a community of over 80 analysts across Boots UK, there are great opportunities for career progression. You will also receive membership of a generous annual bonus scheme, 25 days' holiday per year, and a range of other benefits including a staff discount, as well as discounted BUPA membership and dental plans.

To apply, please visit www.boots.jobs and search reference number Boots57982. The closing date for applications is Friday 17th February 2012.
