

Property Portfolio Analyst

£Competitive

As a business, Halfords is continuing to grow. Having been the leading provider of travel & leisure solutions for the past 100 years, we know that our business is only as good as the people within it. We have big plans for the future and getting the right network, size and location for our property portfolio is key to achieving them. To do this we need to have an elite Property team on board.

Reporting to the Head of Property, we are currently recruiting for a Property Research Analyst to join our Property team at our Head Office in Redditch. Through the provision of geo-demographic and sales forecast analysis, you will assist the Property team and the wider business in making appropriate decisions regarding future business planning and the wider property portfolio. You will work cross functionally and must be able to influence senior stakeholders.

The successful candidate will have experience of using complex geo-demographic systems and data, coupled with a strong analytical background and knowledge of sales forecasting systems. You will be a skilled communicator who can make complex issues straightforward to a varied audience. In addition you must have the ability to work on your own initiative and be able to reprioritise rapidly in line with changing circumstances. Ideally you will have experience of working in a large multiple retail environment.

If you are as excited about the future as we are, join us by visiting www.halfordscareers.com. To apply, please email a CV and covering letter to Stephanie Sollis at stephanie.sollis@halfords.co.uk

Closing date: 10th September 2010
