

## **Location Analyst Boots13290**

The Location team is part of Group Property who are looking for a Senior Location Analyst or Location Analyst to join them in our Nottingham support office. The role will be instrumental in the identification of potential store locations. The role requires strong influencing, communication and analytical skills.

You will be involved in deciding where our stores are located. This is a high profile role to deliver sales forecasts to key decision makers. You will also undertake a variety of location-related project work.

To support you in your role you will use the team's sophisticated Geographical Information System (GIS) software, wide-ranging locational information, analysis and models. You will work cross-functionally to shape the Boots Portfolio Plan, evaluate sites and produce sales forecasts for stakeholders across the Group.

The successful candidate will have the following skills and experience:

- Be an excellent team player
- Highly analytical with strong spreadsheet and database skills
- Have the ability to build successful relationships and influence a wide range of stakeholders
- Be flexible and have the ability to prioritise business opportunities
- Experience in the use of Geographical Information Systems would be useful

For this role you will need a full driving licence as some nationwide travel is required.

Please state your current salary package with your application.
